Use Evernote to collect everything that matters to you, from handwritten notes to web pages and business cards. Once it's in Evernote, it's within reach when inspiration strikes.

Scan and file automatically

The ScanSnap Evernote Edition Scanner recognizes business cards, photos, receipts, and documents. Then automatically files everything into Evernote so it's there when you need it.

Clip web pages

Save web pages to Evernote so you can access them offline, anytime. Just click the Web Clipper button within your browser. The whole page including text, images, and links will be saved in Evernote.

Organize your contacts

Automatically scan business cards using the Evernote camera in Business Card mode. It creates a new contact and syncs with LinkedIn, so you instantly have all the latest information for your contacts.
